

Final Exam (Part 1)

Question 4

The Minnesota State Auditor's Office audits:

- A. the departments within the State of Minnesota.
- B. the Executive Branch.
- C. schools, but not complete districts.
- D. small cities under an unfunded mandate.
- E. none of the above.

A. Incorrect:

The State Auditor's Office has an unfunded mandate to audit counties and cities of first class. The Legislative Auditor's Office audits state departments (Executive Branch) within the State of Minnesota, and private CPA firms audit school districts and small cities.
